Projects

❖ Amber

- **Chatbot:** Smart AI assistant who Interacts with employees (users) at their life cycles over chat.
 - Developed socket based chat application.
 - Speeded up to make it work in 2g networks.
 - Code architecture and code review.
- **Analytics Dashboard:** Clients (admins) can see analytics & culture report.
 - On day 1 of joining I decided to revamp 56000 lines of code to make it scalable and time saving while building new features on it. And I did it in 20 days & night.
 - Data Visualisation using complex charts and numbers.
 - Created dynamic filtering algorithm to make UX better.
 - Created date range library to apply filters.
 - Created Filter retention algorithm to make UX friendly app.
 - As this is a big project, so I'm owning the whole architecture of this app.
- **Admin Panel:** For internal use by Business Development team to manage Clients.
 - Developing/upgrading features to help CS team being more productive.
 - Code architecture and code review.
- **Manager Dashboard:** Analytic Dashboard for managers only.
 - Built it from scratch.
 - Owning whole code architecture.
- **Chatbot in ReactJS:**
 - Converted whole AngularJs Code in React for better performance and scalability.
 - Created spell check library. ~ *It will be on github with MIT licence for public use ;)*
- **Actionable Dashboard**
 - Building the whole application on React JS.
 - Defining scalable architecture.
 - Code Review.

Clients: Nestle India, Pepsi, Emaar, Airtel, Myntra, Jabong, GE Healthcare, MakeMyTrip, Goibibo, Vedanta,

Vistara, Jubilant, IIFL, Pepsi, Mobikwik, Airtel etc.

Skills: React.js, Redux, AngularJS, Javascript, Highcharts, Sockets, HTML, CSS, Material Design.

❖ Betterconnect+

- **BetterConnect+** (BetterConnect+ is a platform for providing goal-based, collaborative care to chronic as well as long-term care patients such as Diabetes, Hypertension, Ortho-pain, Pregnancy etc.)
 - Design thinking and scope writing.
 - Build product from scratch in AngularJs.

- **SmarterClinics EMR** (Application for booking doctor's appointments)
 - Design thinking and scope writing.
 - Build product from scratch in AngularJs.

Skills: AngularJs, Bootstrap 3, Highcharts, HTML, CSS, Javascript.
